What is the French energy storage project

Overview

Where is France's largest battery energy storage system located?

TagEnergy, in partnership with Tesla, has officially begun construction on France's largest battery energy storage system (BESS) in Cernay-lès-Reims, located in the department of Marne .

Will Tesla build France's biggest battery energy storage system?

Lisbon-headquartered renewable energy company TagEnergy has launched construction of France's biggest battery energy storage system (BESS). Tesla will contribute to the project also, offering market access services and its expertise in advanced storage solutions.

What is tagenergy doing in France?

"TagEnergy is proud to announce this flagship project in France, just weeks after connecting the first phase of the Southern Hemisphere's largest wind farm in Australia and the UK's largest transmission-connected battery", said Franck Woitiez, CEO of TagEnergy.

What does Harmony Energy do for France?

Harmony Energy CEO for France Andy Symonds said: "Developing and operating vital battery energy storage facilities across France, will lead to enhanced energy security, more affordable energy bills, and the decarbonization of the grid. We are excited to commence building works on our first project."

Does France's energy transition plan align with French energy transition goals?

Christophe Léonard, Managing Partner for France at TagEnergy, highlighted the project's alignment with France's energy transition goals: " The trajectory outlined in France's Multi-Annual Energy Plan, currently under public consultation, calls for a 2.5-fold increase in wind capacity and a 4-fold increase

in solar capacity by 2035.

What is the largest Bess project in France?

The largest operational BESS in France that Energy-Storage.news has reported on is a 61MW/61MWh project owned by oil and gas major TotalEnergies, deployed by its system integrator subsidiary Saft. IPP TagEnergy will soon start construction on the largest BESS project in France, at 240MW/480MWh, with Tesla providing BESS and EPC services.
