Suda Solar is committed to providing high-quality solar solutions for residential, commercial, and industrial purposes. We aim to empower Sudan with clean, reliable, and sustainable energy for a brighter future. 1. Solar Panel Sales Supplying high-quality solar panels designed for maximum.

At Radiance Co. Ltd, our mission is to deliver sustainable solar solutions that build resilient communities and enhance local economies. We focus on underserved and conflict-affected regions across Sudan, striving to foster long-term growth and stability. Tailored solar energy systems provide.

Alramah Solar Energy Company serves as the exclusive distributor for JNTECH, a prominent solar energy company based in China. JNTECH offers a wide range of solar solutions, including home and office systems, solar air conditioning systems, solar pumps for agriculture, and other related products. As.

Certified Installation with Premium Equipment We handle full solar system installation—from panel mounting and inverter setup to battery integration and commissioning. As an authorized partner of Greensun Solar, we use only high-efficiency panels and certified LiFePO4 battery systems, ensuring.

Providing solar energy systems with minimal maintenance, Gold in Sun ensures long-term efficiency and reliability. Gold in Sun delivers cost-effective solar energy solutions, making sustainable energy affordable for all Founded in 2022, Gold In Sun is a specialized company in solar power systems.

SOLX is a leading company in solar energy solutions providing integrated

services for designing, installing, and maintaining solar energy systems for homes, businesses, and large projects. We believe that clean energy is the foundation of a sustainable future. Transform solar energy into a main. Why should you choose a solar energy system in Sudan?

We focus on underserved and conflict-affected regions across Sudan, striving to foster long-term growth and stability. Tailored solar energy systems provide reliable power, reduce electricity costs, and promote environmental sustainability, designed for homeowners seeking stable and independent energy solutions.

Which solar energy options are available in Sudan?

In Sudan, three solar energy options are available: 1. Solar PV energy: 1000 MW (on- and off-grid) will be applicable in different states within Sudan. 2. Solar CSP technology: 100 MW (grid connected) will be applicable, especially in the northern part of Sudan. 3. Waste to Energy: 80 MW (grid connected) will be applicable in several intended sites.

Can solar water pumps be used for irrigation in Sudan?

Currently, there are many projects aiming at implementing solar water pumping systems in Sudan such as Solar for Agriculture; an ongoing project that aims at promoting the use of solar water pumps for irrigation in Sudan, by targeting 1468 solar pumps in the Northern state, the project expected to be concluded in the year 2021 [6].
